PENNY PACKET SEEDS

for School and Home Gardens

Senior Order Blank

A Talk with Pupils All over this land of ours, in cities, towns and country, there are many thousands of girls and boys just like you, who are proud owners of gardens. In some places, it is not possible to have a school garden so each pupil has his or her garden at home or on a neighboring piece of land. So you see it does not make much difference what conditions are at your home, you can always have a garden.

How to Make a Start As soon as Teacher gives you this order blank, take it home and your parents will help you to select the kinds of seeds you will wish to plant. Then take this order and the money to pay for it, back to school and Teacher will send it on to us with all the other orders from your room. When we fill the orders, we will send this original order back to you with your seeds, so you see you do not have to keep a copy of the order. Remember that if you do not know how to make a garden you need not hesitate about ordering because the big envelope in which your order will be filled has good gardening instructions on its back. Also, each packet of seeds has instructions for the planting and care of that variety. Try it this year.

A Word with Parents If you ever had a garden, you know how well pleased you were with what you learned as your garden progressed.

These were real lessons and because they realize that, most teachers are encouraging gardening among their pupils, either at home or school. It is natural for most children to wish to feel that they have made or produced something, a garden will help them to realize this ambition. Your children will be benefited both mentally and physically by the work of gardening and their idle hours will be reduced. You can make a garden a source of pleasure and profit because of the crisp, fresh vegetables and beautiful flowers which you can grow at little expense. This is not a new movement, for more than 100,000 teachers gave this opportunity to their pupils last season. We have been carrying on this work for fifteen years and because we have always sold seeds which we could guarantee to give satisfaction, our sales have increased until last season we sold more than 13,000,000 packets of seeds. In case there should be no other orders from your school, you may send your order direct on condition that you order at least fifty cents worth of seeds. But the best way is thru the school as nearly every teacher will send us several orders.

Our Guarantee:—If you are not satisfied with the seeds when you receive them, send them right back and we will refund your money. And if, after careful planting, care and cultivation as instructed on the packets, any kinds do not grow, inform your teacher and she will notify us so that we can refund the money paid for those varieties.

Flower Seeds of Special Merit

In the following list we have selected a few of the most desirable new and high priced varieties that cannot be supplied at the popular Penny Packet prices, believing that many will be glad of the opportunity to try them. Mark quantity wanted and price in spaces below.

Giant Exhibition Pansies

The Best that Money Can Buy

No flower is more universally admired than the Pansy and in no other class of flowers have there been greater developments than in the Large Flowering or Giant Pansies. In order that our Patrons may enjoy growing the best there are, at a nominal expense, we have selected the choicest varieties from a number of European Pansy Specialists as follows: Bugnot's Giants, Giant Bridesmaid, Cassier's Three and Five Blotched Giants, Giant Daybreak, Giant Fire King, Madam Perret or Phenomenal, Pretiosa, Mammoth Sunlight, Parisian Large Blotched and Stained, Masterpiece or Ruffled Giants, Odier Five Blotched, Orchid Flowering Giants, President Carnot, President McKinley, Emperor Franz Joseph, etc. Each packet will contain a mixture of all the above and other expensive Large Flowering Varieties. Absolutely the highest priced seed that money can buy.

253, Pkt. 125 seeds, 15c, 2 pkts. for 25c, 5 pkts. for 50c, 1/8 ounce pkg. 90c.

Burbank's Shasta or Alaska Daisy

A perfectly hardy Perennial. If sown early, will bloom the first season. Blooms freely from July to September, bearing large, single, pure glistening white flowers, 3 to 4 inches across, on long stiff stems. Splendid for cut flowers remaining several days in a fresh condition. Forms large clumps that are completely covered with flowers. Worthy of a place in every garden.

254, Pkt., 40 to 50 seeds, 5 cts.

Chinese Woolflower

Among the many beautiful flowers that have come from China, the Chinese Woolflower stands with the leaders. Gives a veritable mountain of bloom from early July until frost.

Plants grow two to three feet high. Scores of branches are thrown out, each bearing a ball of scarlet wool. The plant looks like an immense bouquet splendidly arranged and set in the ground. Flowers cut fresh and carefully dried retain their shape and brilliant color and are useful in winter decorating, like Everlastings. Easy to grow.

255, Pkt. 200 sds. 10c, 3 Pkts. 25c

Aster, American Beauty

This variety is similar in type of flower and growth to the well-known Late Branching Asters. Plants will average two and one-half to three feet in height, according to location, with immense flowers, usually four to five inches in diameter. The flowers are fully double to the last, and are a most lovely shade of bright, carmine rose. The true "American Beauty" Color.

256, Pkt. 250 sds. 10c, 1/8 oz. 25c

Petunia, Rosy Morn

The plants are bushy and compact. The flowers, which are of medium size, are produced in the greatest abundance throughout the entire summer and fall. They are a most pleasing clear bright pink, contrasted by a broad white throat. One of the most useful plants we know for porch boxes, vases, etc., and equally desirable for bedding.

257, Pkt., 150 to 200 sds., 10 cts.

Cardinal Climber

(Ipomoea Quamoclit Hybrida)

A distinct and valuable novelty and one of the most beautiful climbers. A strong and very rapid grower and free bloomer; the vines branch freely, covering a large space very quickly and growing to a height of 15 to 20 feet. Leaves are dark green, fern-like and deeply lacinated; bears a great profusion of fiery, cardinal red flowers, which are about 1 1/2 inches in diameter. It delights in a warm, sunny situation and good soil.

Soak the seed 24 hours before planting and do not plant outside before last of May.

258, Pkt., 25 to 30 seeds, 10 cts.

New Red Flowering Sunflower

Also called "Rainbow Sunflower." A very showy type of Helianthus. Well worthy of a place in the flower garden where it is sure to attract attention. Height 4 to 5 feet, and an abundance of single flowers 4 to 6 inches across. Some flowers are a rich chestnut red, others yellow tipped red, while others are slightly washed or stained red. Very easy culture.

259, Pkt., 25 to 30 seeds, 5 cts.

408 Double Dark Red, each 25 cts.
409 Set of above 4 Peonies for 90 cts.

Total Value of Hardy Roots Ordered from this Page, \$_____

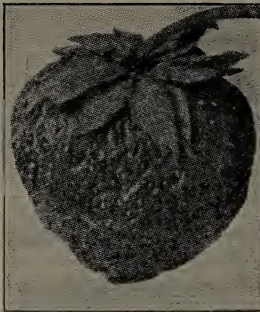

A Page of Selected Berry Plants

We want our patrons to grow the very best varieties of Berries. We do not have the room or desire to confuse you by offering a long list of varieties. We have, therefore, consulted a number of experienced growers, and as a result have selected the following varieties which we confidently believe to be the very best in their respective classes. The Everbearing varieties will not produce quite as large a crop in June as the Standard varieties. They produce throughout the Summer and Fall.

EVERBEARING STRAWBERRY

Progressive Wouldn't it be nice to be able to pick fine, ripe Strawberries all Summer? Well, that is just what you can do if you plant this new variety. It will produce a nice crop in June, and then keep right on bearing all Summer and Fall. On the young plants you can pick ripe berries from June to October. Sure to become popular.

482, Price	6 for 30c. 12 for 50c. 50 for \$1.50. 100 for \$2.50.
-------------------	---

Gibson Strawberry

BEST MAIN CROP STRAWBERRY

Gibson In Berrien County, Michigan, the second largest Strawberry producing county in the world, two-thirds of all the berries grown are the famous Gibson. The berries are extra large, of a beautiful bright-red color, and fine appearance. Gibson plants outyield all others and Gibson berries out-sell other varieties. Equally desirable for home and market. Begin to ripen medium early.

440, Price	12 for 40cts. 50 for 85 cts. 100 for \$1.50.
-------------------	--

Early King Raspberry

THE BEST RED RASPBERRY

Early King An extra early red Raspberry. A week to 10 days earlier than the old "Standby" Cuthbert. The canes are strong, berries very large, bright-red, firm and easily picked. For market it is a money maker as you get the early market ahead of other varieties. Equally desirable for home use.

441, Price	3 for 25 cts. 12 for 85 cts. 50 for \$2.75. 100 for \$5.00.
-------------------	---

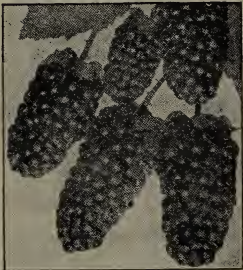

THE BEST BLACK CAP RASPBERRY

Cumberland "The Business Black Cap." The biggest black-cap Raspberry grown. Very hardy everywhere. The heaviest producer and best-all-round variety for home or market. Ripens medium early. Fruit extra large. Jet black.

442, Price	3 for 25 cts. 12 for 85 cts. 50 for \$2.75. 100 for \$5.00.
-------------------	---

Cumberland Raspberry

Snyder Blackberry

NEW EVERBEARING RASPBERRY

St. Regis A splendid new red Raspberry that is well worthy a place in every garden. It produces an abundant main crop in June like the common varieties. Then remove the old canes and the young ones will produce in continually increasing quantities from July to October. The berries are bright crimson of good size and fine quality.

481, Price	15 cts. 3 for 35 cts. 6 for 60 cts. 12 for \$1.00. 100 for \$6.50.
-------------------	--

THE BEST BLACKBERRY

Snyder This most popular hardy Blackberry is known everywhere and is more largely grown than any other variety because of its extreme hardiness and dependability. Where other varieties often fail by winter killing, Snyder can always be depended on for an abundant crop of nice large berries.

443, Price	2 for 25 cts. 12 for \$1.00. 50 for \$3.50. 100 for \$6.00.
-------------------	---

Asparagus

Asparagus Roots Every home garden should have an Asparagus bed. A bed 6 by 10 feet, requiring 50 roots to plant, when established will furnish a daily supply for 3 or 4 people for two months or more. No other vegetable requiring so little care will produce so much desirable nourishing food.

445, Price	Strong 1 year roots. 12 for 25c. 50 for 75 cts. 100 for \$1.25.	446, Price	Strong 2 year roots. 12 for 40c. 50 for \$1.00. 100 for \$1.75.
-------------------	---	-------------------	---

Rhubarb Roots A few clumps of Rhubarb in a corner of the garden, will furnish a continuous supply of material for pies and sauce for early Summer months.

447, Price	Nice one year roots, 4 for 25 cts. 12 for 65 cts.
-------------------	---
